b. Referred to the discussion at the Deputies* Meeting on 29 November respecting PRC procedures and noted at that time the Director had indicated if it was necessary for DD/A to consult with General Counsel and the Comptroller on projects, such projects would not be sent to their offices but rather these individuals would review the project in question in his office. Colonel White pointed out if this is carried out it would pose some difficulties. The Director agreed and stated DD/A would use his discretion in sending projects to General Counsel and the Comptroller for coordination. However, he did feel that very sensitive projects should be examined in the office of the DD/A.
